Work Experience

Cognifyz Technologies, Pune (Remote)

June 2024 - Present

Web Developer Intern

- Working as an intern with the organization assigned some of the tasks from basic to advance level of web development.
- Using the Bulma and Bootstrap to enhance the frontend experience and make the website more attractive and eye-catching.
- Managing to apply my skills and knowledge to the dynamic growth of the esteemed organization as well as enhancing my skills to advance level while working with Cognifyz Technologies.
- Working on languages and frameworks: - HTML, CSS, JavaScript, ReactJS, NodeJS, Bootstrap, Figma, Bulma

Freelancer

Aug 2022 – Present

Web Developer

- Working on the Front-end as well as Back-end languages to deliver a successful product as an output.
- Successfully deploying over five projects with exceptional results, I am now channeling my proven expertise into several new ventures.
- I'm mastering WordPress for content management, Elementor for intuitive design, and the core web technologies HTML, CSS, and JavaScript. I'm also diving into ReactJS for dynamic, responsive web applications, ensuring my projects meet modern standards and exceed user expectations.

SDC, Ganpat University

Nov 2020 – Feb 2022

Club Coordinator

- Organizing coding sessions in which the students were mentored by the industrial experts which can also give them a vision. We as a team also conduct individual coding sessions managed by us for the development of the new skills resulting the students got to learn more about different programming languages.
- Led a tech fest (TechnoFest4.0) at Ganpat University with the excellent result and appreciation from the honorable faculty members as well as dean.
- Conducted few seminars which enlightened students about the programming languages as well as some technologies which might help them in upcoming time

Project Work

- **Globe Outsourcing LLP (2022):** Developed a responsive and optimized website for a firm specializing in legal proceedings and services. The website received positive feedback from the client. Additionally, working on its frequent updates monthly. Impressing the client led to several referrals, underscoring the quality and impact of my work.
- **Bhavani Travels (2023):** Developed a static website which shows the client about the company and its services, the main

service provided by the company was of rental car services. We are still connected for the regular updates of the website.

- **Tathy Holidays (2023):** Developed a responsive and optimized holiday package booking website, providing various holiday packages to clients. The client was impressed and referred me to their network, highlighting the quality and impact of my work. Additionally, I handle frequent monthly and seasonal updates for the site.
- **Akshtam Biotech (Seeds) (2024):** Created a responsive and attractive website for a client offering agricultural products, including seeds. Overcame challenges with regional language typing and successfully completed the project, impressing the client with my work. The client is now discussing a couple of new projects with me, reflecting their satisfaction and trust for the work.
- **Smit Barot (2024):** Developed my own portfolio website showcasing my skills, work, and many more details. This responsive and attractive site features a sleek design, interactive elements, and user-friendly navigation, making it a compelling presentation of my journey. It's a dynamic platform that continuously evolves, reflecting my growth and dedication to excellence.
